

Author Guidelines (Do's and Don'ts)

General Instructions

1. Prepare the paper in Latex/ MS word and submit the PDF copy along with the source file.
2. Check the spelling mistakes using spell check.

All papers must conform, at time of submission, to the IEEE Formatting Guidelines. Please use either this [Word Template](#) or this [Latex package](#). Make sure that you use US letter page format.

Points to note on formatting your MS Word file

Files should be in MS Word format only and should be formatted for direct printing, using the IEEE MS Word template provided. Figures and tables should be embedded and not supplied separately.

Please make sure that you use as much as possible normal fonts in your documents. Special fonts may cause problems during processing. To avoid unnecessary errors you are strongly advised to use the 'spellchecker' function of MS Word.

1. How to download the MS Word template.

Please obtain the "MS Word Template" Click here for Paper Template in MS Word. Do not make any changes to the structure of the template as this can lead to production errors.

2. Paper structure

Papers should be prepared in the following order:

Introduction: to explain the background work, the practical applications and the nature and purpose of the paper.

Body: to contain the primary message, with clear lines of thought and validation of the techniques described.

Conclusion

Acknowledgements (when appropriate)

References

Appendices (when appropriate)

Section headings: should be left justified, with the first letter capitalised and numbered consecutively, starting with the Introduction. Sub-section headings should be in capital and lower-case italic letters, numbered 1.1, 1.2, etc, and left justified, with second and subsequent lines indented.

3. Formatting your document

Please do not alter the formatting and style layouts which have been set up in the template document.

As indicated in the template, papers should be prepared in two column format. Do not number pages on the front, as page numbers will be added separately for the preprints and the Proceedings. Leave a line clear between paragraphs. All the required style templates are provided in the file 'MS Word Template' • with the appropriate name supplied.

i. Title page

The first page should include:

(a) Title

Click on the existing text and enter the title of the paper using sentence case.

(b) Each author's name and affiliation, including present address

Authors' names: Remember to include the correct superscript linking to the appropriate affiliation details. Affiliations: Remember to include the correct superscript linking to the appropriate author details.

(c) Abstract (50-100 words)

Insert an abstract of 50 to 100 words, giving a brief account of the most relevant aspects of the paper.

(e) Keywords (5-10)

Insert 5-10 keywords.

Please follow the template style for all the above features.

ii. Tables

All tables should be numbered with Arabic numerals. Headings should be placed above tables, left justified. Leave one line space between the heading and the table. Only horizontal lines should be used within a table, to distinguish the column headings from the body of the table, and immediately above and below the table. Tables must be embedded into the text and not supplied separately.

iii. Illustrations

All figures should be numbered with Arabic numerals (1, 2, ...). All photographs, schemas, graphs and diagrams are to be referred to as figures. Line drawings should be good quality scans or true electronic output. Low-quality scans are not acceptable. Figures must be embedded into the text and not supplied separately. Lettering and symbols should be clearly defined either in the caption or in a legend provided as part of the figure. Figures should be placed at the top or bottom of a page wherever possible, as close as possible to the first reference to them in the paper. The figure number and caption should be typed below the illustration in 9pt and left justified. For further guidelines and information to help you submit high quality artwork please visit [here](#). Artwork has no text along the side of it in the main body of the text. However, if two images fit next to each other, these may be placed next to each other to save space.

iv. Equations

Equations and formulae should be typed in Mathtype, and numbered consecutively with Arabic numerals in parentheses on the right hand side of the page (if referred to explicitly in the text). They should also be separated from the surrounding text by one space.

v. References

In the text the number of the reference should be given in square brackets. For references with more than two authors, text citations should be shortened to the first name followed by et al., e.g. Jones [1] discovered that...; Recent results from Brown and Carter [2] and Green et al. [3] indicate that (...). Only essential references, which are directly referred to in the text, should be included in the reference list. References must be listed in numerical order at the end of the paper. Do not begin them on a new page unless this is absolutely necessary. They should be prepared according to the sequential numeric system making sure that all material mentioned is generally available to the reader. Journal references should include: author's surname and initials; initials and surnames of remaining authors; article title (where provided); abbreviated journal title (in italics), year of publication, volume number and page numbers. References to books should include: author's surname and initials; surnames and initials of remaining authors; the book title (in italics); the place of publication and the name of the publisher; and year of publication. References to multi-author works should include author.s surname(s) and initials, the chapter title (where provided); "In:" followed by book title (in italics); initials and name(s) of editors(s) in brackets; volume number and pages; the place of publication and name of the publisher, followed by the year of publication. Here is an example of some references listed according to the sequential numeric system:

[1] G. Eason, B. Noble, and I. N. Sneddon, "On certain integrals of Lipschitz-Hankel type involving products of Bessel functions," *Phil. Trans. Roy. Soc. London*, vol. A247, pp. 529-551, April 1955.

[2] J. Clerk Maxwell, *A Treatise on Electricity and Magnetism*, 3rd ed., vol. 2. Oxford: Clarendon, 1892, pp.68-73.

[3] I. S. Jacobs and C. P. Bean, "Fine particles, thin films and exchange anisotropy," in *Magnetism*, vol. III, G. T. Rado and H. Suhl, Eds. New York: Academic, 1963, pp. 271-350.

vi. Footnotes

Footnotes should be avoided if possible. Necessary footnotes should be denoted in the text by consecutive superscript letters. The footnotes should be typed single spaced, and in smaller type size (8pt), at the foot of the page in which they are mentioned, and separated from the main text by a short line extending at the foot of the column. The .Els-footnote. style is available in the “MS Word Template” for the text of the footnote. Please do not change the margins of the template as this can result in the footnote falling outside printing range.

vii. General guidelines for the preparation of your text

Avoid hyphenation at the end of a line. Symbols denoting vectors and matrices should be indicated in bold type. Scalar variable names should normally be expressed using italics. Weights and measures should be expressed in SI units. All non-standard abbreviations or symbols must be defined when first mentioned, or a glossary provided.

viii. File naming and delivery

Please title your zip file as “paperID_track” and submit same through email to the ID contacticinpro@gmail.com

4. Copyright transfer

IEEE policy requires that prior to publication all authors or their employers must transfer to the IEEE in writing any copyright they hold for their individual papers. Please visit the following URL to learn more about securing copyright transfer
<http://www.ieee.org/web/publications/rights/copyrightmain.html>

In order to avoid the loss of copyright by IEEE for your publication, the following copyright must appear either on the copyright page for print proceedings or on the first page viewed when the CD-ROM, DVD or USB drive is accessed.

Copyright and Reprint Permission: Abstracting is permitted with credit to the source. Libraries are permitted to photocopy beyond the limit of U.S. copyright law for private use of patrons those articles in this volume that carry a code at the bottom of the first page, provided the per-copy fee indicated in the code is paid through Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. For reprint or republication permission, email to IEEE Copyrights Manager at pubs-permissions@ieee.org. All rights reserved. Copyright ©2018 by IEEE.

The appropriate copyright clearance code notice is to appear on the bottom of the first page of each paper according to the guidelines set forth in the Cataloging/Copyright Instructions for an IEEE Conference Proceeding. Detailed instructions can be found at: <http://www.ieee.org/portal/pages/about/documentation/copyright/cfrmlink.html>.

1. For papers in which all authors are employed by the US government, the copyright notice is: U.S. Government work not protected by U.S. copyright.

2. For papers in which all authors are employed by a Crown government (UK, Canada, and Australia), the copyright notice is: 978-1-4673-9944-9/18/\$31.00 ©2018 Crown.

3. For papers in which all authors are employed by the European Union, the copyright notice is: 978-1-4673-9944-9/18/\$31.00 ©2018 European Union.

4. For all other papers the copyright notice is: 978-1-4673-9944-9/18/\$31.00 ©2018 IEEE

Authors must sign their copyright form via IEEE eCopyright service. You will be notified about this form once the paper has been accepted for publication.

5. In conclusion

We wish you success with your publication. Should you experience any difficulties during the preparation of your paper, please contact the Publication Chair for further information.
